

V. TAILOR-MADE SOLUTIONS FOR THERMAL INSULATION NEEDS

Suntex offers a wide range of tailor-made solutions for customer individual high performance needs. Depends on meticulously work and with precision on equipment of modern technology, Suntex has provided hundred of high quality custom made products include reusable thermal jackets, mattress, pads, blankets, ductwork connection etc..

SELECTION OF MATERIALS.

SURFACE MATERIALS AND STUFFS

Suntex has been continuing to research, develop and manufacture industrial textiles since it born. By taking advantage of our knowledge of industrial textiles, it ensures us to select the suitable industrial textiles to meet the customer's requirements of high performance needs. From the surface fabric to the stuff materials, Suntex select the most suitable and cost-effective materials to fabricate. The combination of the selected materials can be worked in the extreme environments of temperature from -60°C to 1200°C and chemical corrosion.

SEWING THREAD

Suntex uses the high quality sewing thread to meet the customer's needs. We are using these threads in our products.

WE ARE USING THESE THREADS IN OUR PRODUCTS
